

The Collection Certification Business Rules specify rules related to any of the components that are enforced during the Quality Review process.

Document Contents

Quality Review/Certification Validations	Contains the list of rules and validations that occur upon running Quality Review for a staging area. Note that some validations only apply to certain collections. (Excel Sheet 2)
Version History	Contains a history of updates made to the certification rule validations in this school year (Excel Sheet 3)

Quality Review/Certification Validations

Definitions & Guidance

- Text surrounded by {} indicates that this is a component
- Text surrounded by [] indicates that this is a characteristic
- A Severity of "1" indicates that the validation is an error; a "2" indicates that it is a warning
- *CollectionName* refers to the value of the "CollectionName" attribute in the collection schema
- *AsOfDate* refers to one of two values:
 - For single-certified collections, it is the State-defined certification as of date for the collection
 - For ongoing certified collections, it is the value of the [AsOfDate] characteristic in the {StudentRecordMaintenance} component

Version History

Notes

- TFS Number is used internally by CEPI for tracking purposes
- Each update to a validation or a wording change to the error/warning message will be noted here
