

Component Description

The Initial IEP Component may only be reported once for any single episode of special education services and/or programs. An episode begins when a student not currently receiving special education services or programs is referred for a special education evaluation. The episode ends when the student has been exited from special education services. An exit is determined by IEP and/or graduation or completion of K-12 education.

An error occurs when a subsequent InitialIEP component is submitted for a student who has not been exited from a previous special ed episode.

Decimal Positions

For characteristics of a "number" data type, this specifies the number of digits allowed to the right of a decimal point.

Is Multi Valued?

TRUE indicates that this characteristic may be submitted multiple times in the same component; FALSE indicates that only one instance is allowed.

Required?

Y indicates this characteristic is required to be submitted as part of the schema; N indicates that is either optional at the schema level (but may be conditionally required due to validation rules)

Validation Rules**Definitions & Guidance**

-
- Text surrounded by {} indicates that this is a component
 - Text surrounded by [] indicates that this is a characteristic
 - A Severity of "1" indicates that the validation is an error; a "2" indicates that it is a warning
 - *CollectionName* refers to the value of the "CollectionName" attribute in the collection schema
 - *AsOfDate* refers to one of two values:
 - For single-certified collections, it is the State-defined certification as of date for the collection
 - For ongoing certified collections, it is the value of the [AsOfDate] characteristic in the {StudentRecordMaintenance} component

Notes

- TFS Number is used internally by CEPI for tracking purposes
- Each update to a validation or a wording change to the error/warning message will be noted here

Appendix A

Certain entity-related validations in MSDS are dependent on which collection is being submitted. The table below defines the dates or date ranges that are used in these validations. Validations that are dependent on this table are noted in the specific data validation; they will contain a reference to this appendix.

| Collection | Type | Start Date | End Date |
|-----------------------------|------------|----------------------------|------------------------|
| General collections | date | Certification As of Date | |
| Early Childhood collections | date range | Collection Open Date | Collection Close Date |
| Student Record Maintenance | date | As of Date (SRM component) | |
| Teacher Student Data Link * | date range | 7/1/{AcademicYear start} | 8/31/{School Year End} |
| | date range | 7/1/{School Year Start} | 8/31/{School Year End} |
| Early Roster | date range | 7/1/{School Year Start} | 6/30/{School Year End} |
| all other collections | date | Today's Date | |

* The TSDL collection will use the school year value submitted in the Academic Year characteristic, if it was submitted. If no value is found, the current school year values are used.
