

Component Description

The Early Childhood Programs Component is used to collect data related to the student's participation in early childhood programs or services. You are required to report this component when the student is identified as participating in the Great Start Readiness Program (GSRP), GSRP/Head Start Blend, Sec. 32p Early Childhood, or Section 32p(4) Home Visitation program, or on a GSRP - Wait List. It is a federal expectation that children participating in a Head Start, Early Head Start or Early Head Start-Child Care Partnership program be reported. The Michigan Department of Education's Office of Great Start encourages you to report students participating in any other early childhood programs to assist in longitudinal program evaluations, although this is not a requirement.

Appendix A

Certain entity-related validations in MSDS are dependent on which collection is being submitted. The table below defines the dates or date ranges that are used in these validations. Validations that are dependent on this table are noted in the specific data validation; they will contain a reference to this appendix.

Collection	Type	Start Date	End Date
General collections	date	Certification As of Date	
Early Childhood collections	date range	Collection Open Date	Collection Close Date
Student Record Maintenance	date	As of Date (SRM component)	
Teacher Student Data Link *	date range	7/1/{AcademicYear start}	8/31/{School Year End}
	date range	7/1/{School Year Start}	8/31/{School Year End}
Early Roster	date range	7/1/{School Year Start}	6/30/{School Year End}
all other collections	date	Today's Date	

\* The TSDL collection will use the school year value submitted in the Academic Year characteristic, if it was submitted. If no value is found, the current school year values are used.
