Collection Matrix

Component Status

Defines which collections the component may be submitted. The possible values are:

| <u>Name</u> | <u>Description</u>   |
|-------------|--|
| Required    | This component must be submitted in this collection. If omitted in an upload, the file will be rejected upon upload.         |
| Optional    | This component is optional in this collection, but may be conditionally required due to validation rules.                    |
| Not Allowed | This component cannot be submitted in this collection. If included in an upload file, the file will be rejected upon upload. |

Schema

Characteristic Name

The name of the characteristic. This matches the name in the schema.

Characteristic Description

A description of the characteristic and why the data is needed.

Data Type

The system data type. The possible values are:

| <u>Name</u>   | <u>Classification</u> |
|---|-----------------------|
| Addresses (numbers, letters, #)                       | string                |
| Date (only)   | date                  |
| Date (year and month only) (YYYYMM)                   | string                |
| Decimal Number  | decimal               |
| List of Values (choose from list)                     | string                |
| Names (letters, apostrophe, commas, hyphens, periods) | string                |
| Numeric Text (0-6) (can have leading zeros)           | string                |
| Numeric Text (can have leading zeros)                 | string                |
| Text (free form)                                      | string                |
| Text (numbers and letters)                            | string                |

|                                      |         |
|--------------------------------------|---------|
| Whole Number (integer)               | int     |
| Yes / No (or True False, or Boolean) | boolean |

Min Length

For characteristics of a "text" data type classification, this specifies the minimum character length

Max Length

For characteristics of a "text" data type classification, this specifies the maximum character length

Min Value

For characteristics of a "number" data type classification, this specifies the minimum character length

Max Value

For characteristics of a "number" data type classification, this specifies the maximum character length

Decimal Positions

For characteristics of a "number" data type, this specifies the number of digits allowed to the right of a decmial point.

Is Multi Valued?

TRUE indicates that this characteristic may be submitted multiple times in the same component; FALSE indicates that only one instance is allowed.

Required?

Y indicates this characteristic is required to be submitted as part of the schema; N indicates that is either optional at the schema level (but may be conditionally required due to validation rules)

Validation Rules

Definitions & Guidance

- Text surrounded by {} indicates that this is a component
- Text surrounded by [] indicates that this is a characteristic
- A Severity of "1" indicates that the validation is an error; a "2" indicates that it is a warning
- *CollectionName* refers to the value of the "CollectionName" attribute in the collection schema
- *AsOfDate* refers to one of two values:
  - For single-certified collections, it is the State-defined certification as of date for the collection
  - For ongoing certified collections, it is the value of the [AsOfDate] characteristic in the {StudentRecordMaintenance} component

Version History

**Notes**

---

- TFS Number is used internally by CEPI for tracking purposes
- Each update to a validation or a wording change to the error/warning message will be noted here

Appendix A

Certain entity-related validations in MSDS are dependent on which collection is being submitted. The table below defines the dates or date ranges that are used in these validations. Validations that are dependent on this table are noted in the specific data validation; they will contain a reference to this appendix.

| Collection                  | Type       | Start Date                 | End Date               |
|-----------------------------|------------|----------------------------|------------------------|
| General collections         | date       | Certification As of Date   |                        |
| Early Childhood collections | date range | Collection Open Date       | Collection Close Date  |
| Student Record Maintenance  | date       | As of Date (SRM component) |                        |
| Teacher Student Data Link * | date range | 7/1/{AcademicYear start}   | 8/31/{School Year End} |
|                             | date range | 7/1/{School Year Start}    | 8/31/{School Year End} |
| Early Roster                | date range | 7/1/{School Year Start}    | 6/30/{School Year End} |
| all other collections       | date       | Today's Date               |                        |

\* The TSDL collection will use the school year value submitted in the Academic Year characteristic, if it was submitted. If no value is found, the current school year values are used.
